## PALLETIZER SERIES 1000

The palletizer series 1000 is suitable for medium throughputs from 500 to 1,000 bags/hour. The modular design of this equipment guarantees you an optimal palletizing quality.

### Our advantages :

#### ■ Features

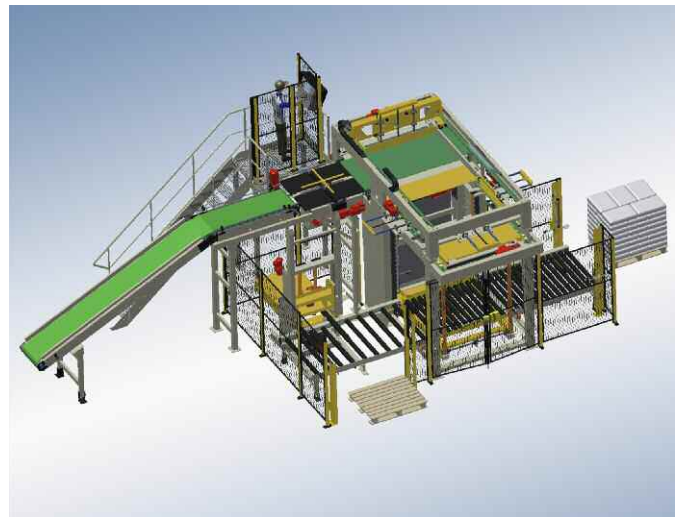

- layer palletizer for medium throughputs
- four side conforming plates with row pusher for compaction of the layer
- motorized lifting unit
- bag orientation with turning clamp or turning cross depending on the product

#### ■ Maintenance

- easy access to the inside of the machine for cleaning
- a touch screen allows access to the machine's menu

#### ■ Operational

- HMI allows manual operation and the modification of all parameters of the machine
- touch screen for machine menu and packing pattern program
- fully automatic palletizer without mechanical control

## TECHNICAL DATA

### PRODUCTS

Pet Food  
PVC powder  
Mortar  
Flour

### CAPACITY

500 to 1,000 bags/hr

### BAG TYPE

Paper valve bags or open bags  
PE valve bags or open bags  
PP valve bags ou open bags  
FFS bags

### BAG WEIGHT

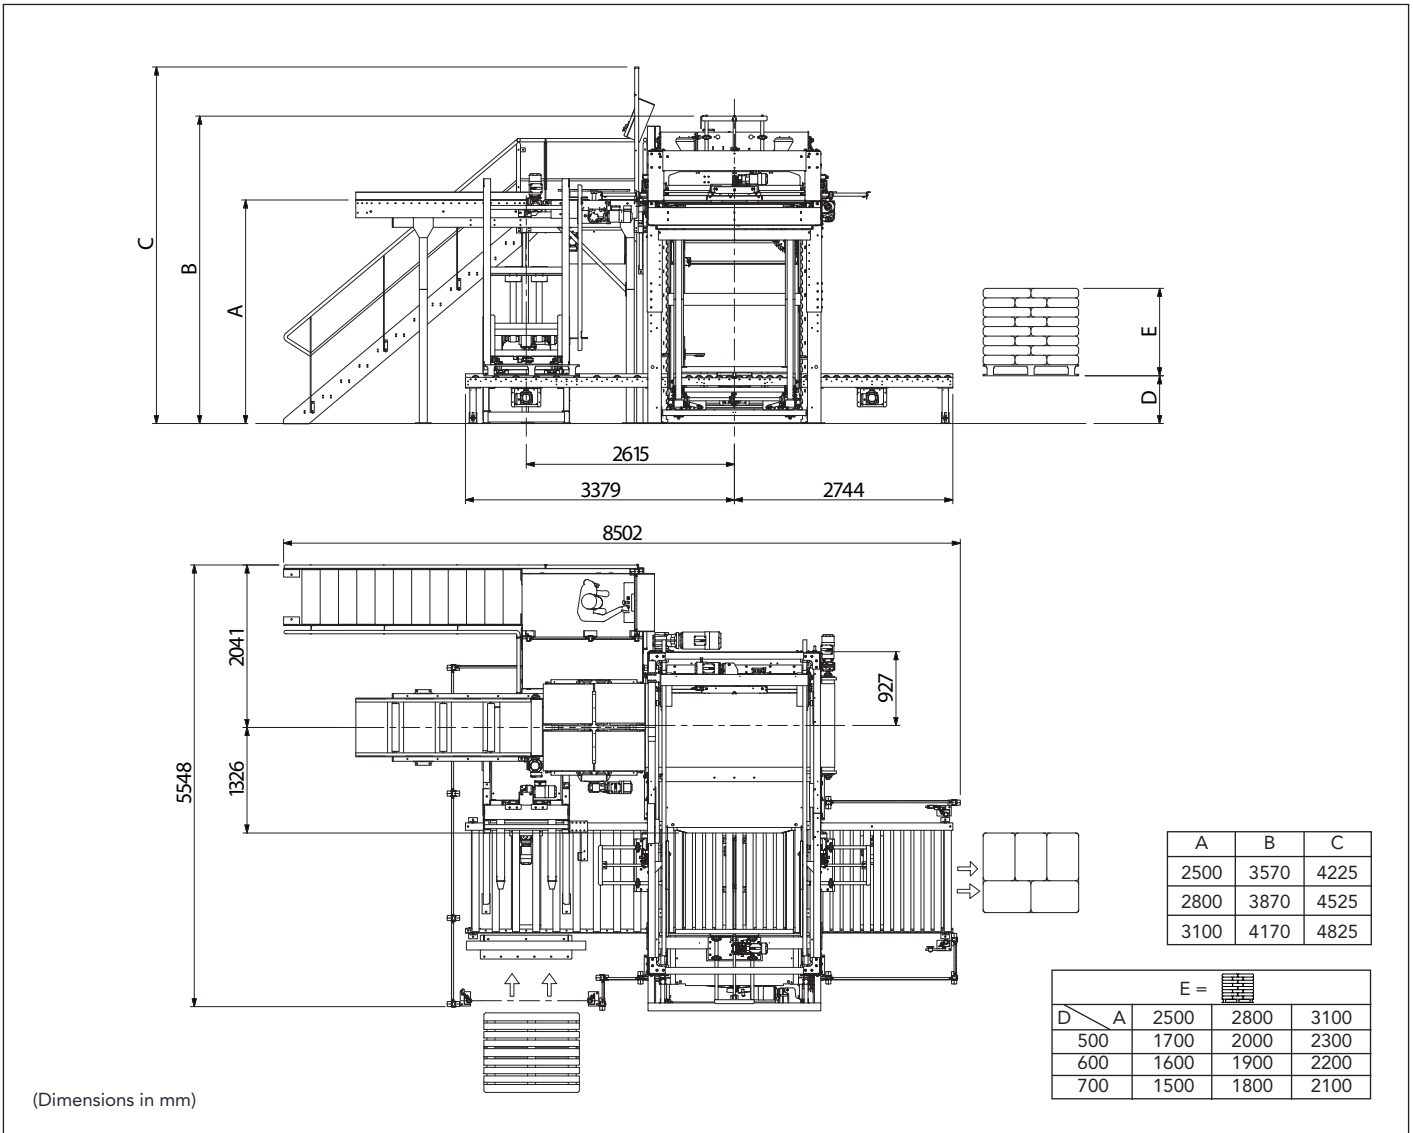

5 to 50 kg
