## PALLETIZER SERIES G 300

The palletizer series G 300 is designed for low capacity applications up to 300 bags/hour for bags from 5 to 50 kg. This series exists in a semi-automatic version, where empty pallets are supplied and full pallets are removed using a pallet truck, or in an automatic version with an empty pallet dispenser and removal conveyors.

### Our advantages:

#### ■ Features

- deposit in a frame
- picking up of bags with a gripper enabling overlapping
- capacity 300 bags/hr
- slip sheet dispenser interlayer in option

#### ■ Maintenance

- easy maintenance in the floor area
- standardisation of components
- VPN connection
- low maintenance cost

#### ■ Operational

- HMI allows manual operation and the modification of all parameters of the machine
- touch screen for packing pattern program
